Average annual temperature: Around 18°C

Dazu Rock Carvings

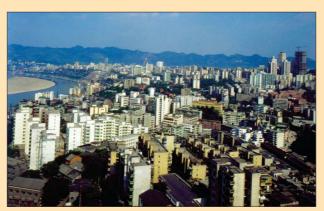

Average annual precipitation: 1,000-1,400mm

Chongqing's main topography is hilly land sloping from the south and north toward the Yangtze River valley. The Yangtze River runs through the city from east to west toward the famous Three Gorges.

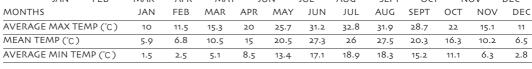

The city abounds in gifts of nature, boasting both natural scenery and cultural interest. Lots of mountains, waters, forests, springs, waterfalls and caves vividly present the grandness, grotesqueness, peril and tranquility of the nature.

Special scenic spots include the Three Gorges, the Dazu Rock Carvings, the Fengjie Tiankeng Rift. The Dazu Rock Carvings has been inscribed to the World Heritage List.
